UI/UX Designer / Front -End Developer (Immediate Joiner)

SUMMARY

Entry-level UI/UX Designer with two design internships in product UX and VR/AR spatial UI. Covers the full cycle: user research, Figma design systems, usability testing and accessible front-end builds in React and HTML/CSS. Validated a VR anatomy platform with 45 participants (SUS 82.5/100) and published research on QR-triggered AR. Google UX Design Professional Certificate holder.

EXPERIENCE

Product & UX Design Intern I Web Wala
// *January 2026 – April 2026*

- Designed a dual-mode VR navigation experience (Study and Explore) with 50+ Figma components, 30+ screen states and documented design tokens.
- Moderated usability studies with 45 participants (SUS 82.5/100, 91% task completion) and drove two rounds of interaction revisions.
- Built responsive, accessibility-focused interfaces in React and semantic HTML5 following WCAG 2.1 guidelines; used Google Search Console data to improve on-page UX on live client projects.

Spatial UI/UX & AR/VR Intern AR/VR Lab, Parul University
// *February 2024 – January 2025*

- Designed spatial UX for Meta Quest and HTC Vive (depth-comfort zones, gaze-based navigation, diegetic UI) for education and marketing clients.
- Built marker-based WebAR experiences with ARCore and A-Frame, shipping QR-triggered content layers across mobile and web. Led 5 Unity 3D and Blender workshops for 50+ peers.

PROJECTS

3D Human Anatomy VR Platform Figma, Meta Quest, HTC Vive
Owned the Figma design system (spatial interaction tokens, component library, documentation) across Study and Explore modes; refined the VR information architecture from usability feedback.
View Prototype

QARA: QR-Triggered AR Experience WebAR, ARCore, A-Frame | Published, IJCSER 2025
Designed the interaction model end-to-end, from QR-trigger UX and content-layer sequencing to accessible first-use flows with progressive-disclosure onboarding.

The Dying Interface HTML5, CSS3, JavaScript, SVG, Web Audio API
Built a five-state interface (Alive to Ruined) that decays when idle and recovers on interaction, with a 40-token design system, SVG cracks and synthesized state-reactive audio.

CERTIFICATES

Google UX Design Professional Certificate Google via Coursera
// *October 2026* // Verify
Eight-course program covering UX research, wireframing, prototyping, usability testing and high-fidelity Figma design.

Google AI Essentials Google via Coursera
// *October 2026* // Verify
Five courses: introduction to AI, AI productivity tools, prompting, responsible AI use, staying current with AI.

Python Programming (30-Hour Certification) Parul University Verify

SKILLS

Design & Research
Figma // Design Systems // Wireframing // Prototyping // Interaction Design // Information Architecture // User Research // Usability Testing // SUS Scoring // Personas // Empathy Maps // User Journey Maps // Competitive Audits

Front-End
React // JavaScript // HTML5 // CSS3 // Git // Responsive Design // WCAG 2.1 Accessibility

Spatial, 3D & Other
Spatial UI/UX // Gaze-Based Navigation // WebAR // ARCore // A-Frame // Unity 3D // Blender 3D // Meta Quest // HTC Vive // Python

EDUCATION

B.Tech, Computer Science & Engineering (Artificial Intelligence) Parul University
// *Graduated July 2026, Vadodara, India*
CGPA: 7.19/10. Outstanding Public Speaker, CDC Global Fun Fest 2023–24.
